Multiwell is a leading provider (technology products and services) for Plastic Surgeons, Dermatologists, Cosmetologists and Podiatrists.

Multiwell specializes in providing the above professionals with a full range of technology solutions including as well as materials and after sales support.

Multiwell focuses on providing technological solutions exclusively to the medical Cosmetic market.

As a result, we are well experienced in working with medical cosmetic professionals as well as the numerous healthcare specific technologies and applications of today’s market.

Multiwell Departments:

Plastic Surgeons
Cosmetology
Dermatology
Podiatry

Multiwell History

Multiwell can claim that it has been serving the technological needs of the medical aesthetic community since 2003. During this time we’ve experienced first hand the complexity of today’s medical aesthetic technology and have developed solutions to help ease the frustration experienced by many medical aesthetic professionals, with the implementation and management of these technologies.

Multiwell Experience

Innovation in medical aesthetic technology ranging from aesthetic lasers and other devices (mesotherapy etc), medical cosmetics products, continuing to increase the need for cost effective and competent technology resources. Our team of experienced consultants and implementation specialists can provide your practice for all its needs. Our unique technology concepts ensure that our customers are matched with the right equipment, products, training, and support to effectively use their technology to enhance the patients’ requirements.

Multiwell Mission

Multiwell’s mission is to provide it’s customers with the right technology, products and support to continually improve their proficiency in a cost effective manner.

OMEGA LASER  Podiatrist Lasers
TEOXANE Laboratories was set up in Geneva in 2003 and specialises in the design and manufac-ture of hyaluronic acid-based wrinkle-filling products.

Buoyed by the success of its products, thanks to a level of control, expertise and high-quality standards for its products, as well as its constant quest for innovation and patient satisfaction, today TEOXANE Laboratories is present in over 90 countries worldwide.

It is now recognised as one of the undisputed leaders in its segment and, in the space of a few years, has risen to 3rd place in the hyaluronic acid-based wrinkle fillers market worldwide.

TEOXANE offers a complete dermal fillers range: 16 references, with and without lidocaine, customized for each indication.

Teosyal® portfolio is divided into families, gathering products with similar treated areas and indications.

The Teosyal range are wrinkle-filling products containing 100% non-animal origin, resorbable hyaluronic acid. Teosyal is developed using the patented cross linking Resilient Hyaluronic Acid Technology making them highly efficient and long lasting.

With the TEOSYAL® range, it is possible to redefine and redesign the lines and contours of your face as gently and naturally as possible.
**TEOSYAL® TRIPLE ACTION**

1. **TEOSYAL® FILLS**
   TEOSYAL® is injected under the wrinkle, to raise it from the inside, instantly making it disappear thanks to the volume created.
   98% satisfaction in terms of wrinkle-filling effect*

2. **TEOSYAL® RESTORES VOLUME**
   It plumps up and resculpts the face, redefining its contours to combat skin sagging.
   98% satisfaction in terms of volume-boosting effect*

3. **TEOSYAL® REVITALISES**
   TEOSYAL® promotes deep-down hydration and revitalisation of your skin.

In 2011 Teoxane added 0.30% lidocaine to their range in order to provide their patients with a more comfortable end user experience.

Our complete range of filling products enables the practitioner to tailor the product to the individual needs of the patient.

---

**Teosyal First Lines**
For the correction of superficial wrinkles and skin breaks. Injectable into the superficial dermis, mainly recommended for fine lines and superficial wrinkles like such as crow’s feet.

---

**Teosyal Global Action**
Treatment for the filling of linear facial wrinkles such as slight or moderately marked nasolabial folds and lines around the mouth.
Injected into the mid-dermal layer, suitable for mild-moderate wrinkles, nasolabial lines, glabellarlines, periorbital and perioral areas.

---

**Teosyal Ultra Deep**
Designed for creating or restoring facial volumes, resculpting facial contours, treating deep wrinkles in thick skin, erasing folds in the skin, correcting minor ptoses and restoring the face’s original curves.

---

**Teosyal Touch Up**
Treatment for filling moderate facial wrinkles and for interim touch up sessions.
Suitable for a touch-up sessions when in the process of completing Teosyal Global Action treatments.

---

**Teosyal Deep lines**
Treatment to fill deep facial wrinkles.
Teosyal Deep Lines is injectable into the mid-deep-dermal layer and is suitable for deep nasal furrows, lip augmentation facial contours on cheeks and jaw line.

---

**Teosyal Ultimate**
Designed to create volume in the upper cheeks, cheeks and chin and for correcting deep skin depressions. It is the newest addition to the Teosyal® range.
Teosyal Kiss
Lip enhancement, balance and contour. Its smooth consistency creates a natural long lasting result for increased patient satisfaction.

Teosyal Redensity I
A new treatment between mesotherapy and filling. This innovative product has been developed to provide the skin with all the components it needs to shine and preserve its radiance.

Teosyal RHA
TEOSYL®RHA is a wrinkle filler product based on hyaluronic acid designed to support the skin in every move, while helping to preserve the vitality and softness of your face.

Teosyal Meso
The viscoelastic and rehydrating properties of Teosyal Meso restore all the suppleness, elasticity and tone to your skin.

Teosyal Redensity I
Latest generation of fillers which has been specifically formulated to treat eye circles. It rejuvenates this sensitive area with long lasting correction and excellent clinically proven tolerance.

Teosyal Redensity I
Lip enhancement, balance and contour. Its smooth consistency creates a natural long lasting result for increased patient satisfaction.

ADVANCED FILLER NORMAL SKIN
Derma-restructuring Anti-Wrinkle Cream
The exclusive combination of RHA® and Restructuring Complex boosts the synthesis of hyaluronic acid and collagen deep inside the skin to recreate its tissue from inside(1) and fill wrinkles in(2).
Its unique smoothing and mattifying texture is specially designed for normal to combination skin.

ADVANCED FILLER DRY SKIN
Derma-Reconstructing Anti-Wrinkle Cream
The exclusive combination of RHA® and Restructuring Complex boosts the synthesis of hyaluronic acid and collagen deep inside the skin to recreate its tissue from inside(1) and fill wrinkles in(2).
Its unique soft and enveloping texture is specially adapted to comfort dry skin.
**DEEP REPAIR BALM**
Ultra-Comfort Soothing Balm
The moisturising and filmogen action of DEEP REPAIR BALM helps restoring the altered skin protection function.

**Skin Renewal Cream**
The exclusive combination of RHA® and highly concentrated resurfacing ingredients is visibly effective in rapidly increasing the quality of your skin. A highly concentrated formula of active ingredients designed to support and enhance the effects of professional aesthetic procedures.

**RHA™ SERUM**
Visibly transforms the skin within 14 days
Innovation from TEOXANE LABORATORIES medical aesthetic research. The high-dose RHA® helps to reactivate skin’s natural mechanisms of deep regeneration: cell renewal and tissue restructuring. Action combined with enhanced antioxidant protection(1). Second skin texture with high hydration power and instant tightening effect*.

**R[ll] EYES - RHA™ ADVANCED EYE CONTOUR**
R[ll] EYES combines the TEOXANE anti-aging complex (RHA™ Technology, Dermo-Restructuring Complex and NovHyal) with active ingredients recognized for providing an expert anti-fatigue and anti-aging solution, developed specifically for the eye-contour area. A formula specially designed to be fragrance-free for sensitivity around the eyes.

The first, cordless, motorised hyaluronic acid system.

The motorised TEOSYAL®PEN system was designed to be gentle, consistent and virtually painless.

The volume of gel and injection speed can be programmed by the doctor according to the requirements of the specific area to be treated. The gel is injected slowly and regularly, using the motorised injection system.
INNOAESTHETICS is committed to excellence within the medical-aesthetic field; this commitment is the hallmark of our identity. As our brand expands in the US market, our reputation for outstanding product ingenuity, compelling formulations and concise scientific research grows.

InnoAesthetics employs a multidisciplinary approach which combines extensive pharmaceutical knowledge with scientific-medical support to provide comprehensive medical-aesthetic products. The quality, integrity and dedication to the formulations created by our laboratory provide maximum bio-availability and synergy to our products. The efficacy of our formulations manufactured with advanced developments is incomparable offering visible improvement to the appearance of the skin, leading to optimal and evident clinical results.
SKIN DEVICE
Stimulates the skin and causes an autologous effect in the formation of collagen. Distributes the active ingredients and facilitates the penetration of these active ingredients present in the products of the INNO-ROLLER range.

A device comprised of micro-needles that stimulates the skin and assists in the penetration of those active ingredients through the stratum corneum. Through the micro-perforations the ingredients reach the level of the epidermis and/or dermis (depending on the size of the needle) and treat the different aesthetic problems with the utmost effectiveness. The heads are interchangeable, allowing the same device to be used with different needle measurements.

P by P
Medium depth peel with keratolytic penetrating agents for localised lesions.

DARK SPOT ERASER 24H CREAM
Home use product for skin rejuvenation and pigmentation.

AGE RESCUE 24H CREAM
Intensive homecare treatment for skin rejuvenation.

β PURIFIER 24H CREAM
Effective home use for recovery and balance of oily skin.

INNO-ROLLER®
Microneedling Therapy

HAIR REVIVAL
Estimulates and revives the capillary physiology therefore preventing hair loss and promoting hair growth.

CAVIAR DETOX
Powerful synergistic action on epidermal melanotic pigmentation, fine lines and moderate photoageing.

SNAP 6-7-8
Powerful peptide formulation that is able to slow down the dynamic movement of the facial muscle fibers, thus preventing the appearance of wrinkles and the formation of expression lines.

DEPITACH
Support formulation for the improvement of the hyperchromia or unesthetic pigmentations.

HYAL
Product designed to moisturize the skin and smooth the cutaneous imperfections.

RECOVERY
Efficient mixture of active principles acting as a support to treatments that combat acneic and/or sebaceous skin.
TIGF
Stimulation of growth.

RESTRUCTURER
A powerful multifunction mixture that achieves adequate dermal and epidermal restructuring.

HYALURONIC ACID
Intense revitalizing action for the therapeutic approach to mild skin ageing.

INNO-TDS®
Transdermal Delivery System (injectable mesotherapy)

SLIMMING
Lipolytic agent that reduces the appearance of cellulite.

REDOX
Powerful free radical neutraliser to improve moderate to severe skin ageing.

REDOX
Powerful free radical neutraliser to improve moderate to severe skin ageing.

HYALURONIC ACID
Intense revitalizing action for the therapeutic approach to mild skin ageing.

MATRIX
Significant dermal revitalization for the maintenance of the extracellular matrix. Detoxification of the tissues.

FIRMING
Strengthens elastic fibres to combat sagging.

CYNARA PLUS+
Venotonic and lymphokinetic for the management and disposal of water retention in the appearance of cellulite.

DRAINING PPC
Reduces localized adiposity.

HYALURONIDASE 1500
Diffusing action, control of fibrous cellulite conditions. Break-up of abnormal accumulations of hyaluronic acid chains.

TRACER
Trace elements/cofactors for cellular metabolism.

VITAMIN COMPLEX
Stabilise vitamins, minerals, micronutrients and hyaluronic acid to ensure optimum cellular metabolism.

HAIR LOSS CONTROL
Synergistic combination of ingredients that promote and maintain healthy hair growth.
**INNO-DERMA®**
Advanced 24/7 Dermocosmetics

**SOFT CLEANSER**
Deep cleansing with a protective effect on the hydrolipidic layer and the cutaneous pH.

**DEEP CLEANSER**
Our cosmeceutical product for a descaling cleansing of oily and sebaceous skin.

**SKIN POLISHER**
Microdermabrasion with ultra-soft fine granules that eliminate dead skin cells, for use at home or pre-treatment to professional applications.

**SKIN REPAIR**
A powerful combination of active principles for cutaneous repair and restructuring after aesthetic procedures.

**EYE REVITALIZER**
Direct and vigorous effect for problems of the palpebral, peripalpebral and periorbital areas.

**ADVANCE HYDRATING**
Powerful hydrating activity together with the antioxidant effect of the specific active principles that regenerate and protect the skin cells.

**LIGHT MOISTURISER**
Extreme hydration with a sebum-regulating effect.

**BIO C SERUM**
The highest concentration of pure vitamin C for effective antioxidation.

**SUNBLOCK UVP 50+ UVB/UVA**
Solar filters combined with hydrating and antioxidant active principles for adequate skin protection and regeneration.

**SUNBLOCK UVP 50+ OILY SKIN**
Enhanced integration of physical and chemical protectors with a hydrating and sebum-regulating effect, as well as cellular protection.

**COVERAGE UVP 50+**
Makeup with extreme protection that is photochromic and regenerative for all skin types.

**BODY MOISTURISING**
Extreme body hydration with micronutrients to keep skin firm, smooth and flexible.

**HOT & SLIM**
Heat activated product to stimulate the microcirculation of the body.

**FIRMING CREAM**
Final step in the renewal of elasticity and tensor effect of the skin.

**SLIMMING CREAM**
Radical improvement of the states of cosmetic cellulite treatment.
CLINICCARE is a high technology cosmeceutical with immediate and visible effects. Globally patented complexes of hyaluronic acid are many thousand times smaller than ordinary molecules and can penetrate deep into the skin to hydrate and rejuvenate from within. Special formulas provide outstanding results due to unique combination of very effective active ingredients. CLINICCARE use state-of-the-art technology to ensure the highest levels of safety. All CLINICCARE skincare products are designed to provide long lasting deep skin hydration.

**Silky Foam Cleansing 100ml**
This concentrated vegetable foam cleanser is suitable for all skin types. Its light foam will gently remove impurities, excess sebum and make-up residue.

**EGF Extra Anti-Inflammation Toner 100ml**
Specially formulated toner for the treatment of troubled skin (acne). This toner provides the right amount of nutrients and moisture to treat skin blemishes and acne-like conditions.

**EGF Extra Anti-Inflammation Toner 100ml**
Specially formulated toner for the treatment of troubled skin (acne). This toner provides the right amount of nutrients and moisture to treat skin blemishes and acne-like conditions.

**EGF Extra Skin Rejuvenation Toner 100ml**
Skin rejuvenating toner to achieve beautiful and younger-looking skin. This toner targets the action of free radicals and counters the effect of dehydration. It provides a deep skin hydrating action and forms a protective moisture barrier.

**EGF Extra Anti-Inflammation Essence 50ml**
A highly enriched essence to soothe troubled skin (acne). This essence contains green tea extract, which has the ability to disinfect and repress inflammation through its antibacterial and antimicrobial properties. It helps prevent acne and other similar skin conditions.

**EGF Extra Anti-Pigmentation Toner 100ml**
Anti-pigmentation toner to achieve an even and beautiful complexion. This toner targets the effects of oxidants and tyrosinase. It lightens age-spots and hyper-pigmentation caused by excessive sun exposure.

**EGF Extra Skin Rejuvenation Essence 50ml**
This essence soothes, hydrates and rejuvenates even the most sensitive skin. Small molecule bio hyaluronic acid provides the skin with deep moisture and restores damaged skin tissue.

**EGF Extra Anti-Inflammation Essence 50ml**
A special anti-pigmentation essence for a glowing and even skin. Having an excellent effect in cell activation, anti-oxidant and tyrosinase inhibition, Jeju orange, enriched Arbutin and Mulberry bark extract effectively target skin problems such as melanoma and age-spots.

**EGF Extra Anti-Pigmentation Essence 50ml**
A special anti-pigmentation essence for a glowing and even skin. Having an excellent effect in cell activation, anti-oxidant and tyrosinase inhibition, Jeju orange, enriched Arbutin and Mulberry bark extract effectively target skin problems such as melanoma and age-spots.

**EGF Extra Skin Rejuvenation Serum 50ml**
A highly enriched serum for troubled skin (acne). This serum contains green tea extract, which has the ability to disinfect and repress inflammation. In addition, it has an excellent antioxidant effect.

**EGF Extra Anti-Pigmentation Serum 50ml**
A special anti-pigmentation serum for brighter skin. Jeju orange, enriched Arbutin and Mulberry bark extracts designed to target problems such as melanoma, age spots and hyper-pigmentation.

**Silky Hair Shampoo 250ml**
This powerful eye cream reverses the multiple signs of ageing around the delicate eye area, which include wrinkles and crow’s feet. Low molecular weight Hyaluronic Acid together with our exclu-

**Sun Block Silky Cream (SPF30) 50ml**
Sun Block Silky Cream (SPF30) provides effective all day protection against harmful UVA and UVB rays, thanks to its 13 hour formula. People with sensitive skin can use it safely.

**Silky Hair Shampoo 250ml**
Silky hair Shampoo is a unique combination of active ingredients specially designed to maintain scalp vitality and act on follicle dysfunctions in order to achieve anti-hair loss results.
One of the first cosmeceutical companies to develop products using ingredients such as hyaluronic acid, stabilized vitamin C, and glycolic acid; Dermaceutic has led the cosmeceutical industry in the discovery of effective combinations of ingredients for use in aesthetic dermatology.

Through a progressive approach with peel intensity adapted to each patient, and a personal homecare regimen, optimal results can be achieved.

The efficacy of Dermaceutic’s cosmeceutical and peel treatment protocols is supported by extensive clinical trials, and the company's collaboration with industryleading practitioners from around the globe.

**Mask Peel Treatment**
For oily skin, dilated pores and excess sebum.

**Milk Peel Treatment**
For fine lines, dull complexion and loss of tone

**Cosmo Peel Treatment**
For wrinkles, texture, smoker’s complexion and pigment disorders

**Mela Peel Treatment**
For the appearance of pigment spots, epidermal melasma and post-inflammatory pigmentation

**Mela Cream**
For pigment spots, harmonized complexion and even skin tone.
Foamer 5
Gently removes impurities and dead cells and purifies the skin. Foamer 5 is recommended for darker or more sensitive skin with dull complexion, irregular texture and skin imperfections.

Foamer 15
Removes impurities and dead cells, and purifies the skin. Foamer 15 is recommended for dull complexion, irregular texture and skin imperfections.

Mask 15
Removes dead cells and excess sebum, and purifies combination and oily skin. Mask 15 is recommended for oily skin, and skin that is prone to acne.

Light Ceutic
Stimulates skin radiance and evens out the complexion. Light Ceutic is recommended for dull skin and irregular complexion.

Turn Over
Promotes skin turnover and reduces the appearance of signs of aging. Turn Over is recommended to treat loss of skin tone, wrinkles and fine lines.

Hyal Ceutic
Helps moisturize the skin after aesthetic procedures. Hyal Ceutic provides essential nutrients to keep the skin hydrated all day.

Regen Ceutic
Accelerates epidermal restoration post aesthetic treatments: nourishes and firms the skin. Regen Ceutic is recommended for sensitive, dehydrated and aging skin.

K Ceutic
Helps nourish the skin following aesthetic treatments, by soothing the skin and delivering essential nutrients.

Sun Ceutic 50
Provides high protection for skin exposed to UV rays and helps to prevent premature aging of skin.

C25 Cream
Concentrated in antioxidants which contribute to prevent damage from free radicals. C25 Cream is recommended for irregular complexion and loss of radiance.

Activ Retinol 0.5
Medium Strength. Improves the appearance of skin texture and also reduces the appearance of signs of skin aging.

Active Retinol 1.0
Extra Strength. Improves the appearance of skin texture and also reduces the appearance of signs of skin aging.

Derma Lift 5.0
Immediate lift effect combined with long-term peptide skin-boosting effect. Lifts skin’s appearance for longlasting, younger-looking skin.

Yellow Cream
Stimulates and promotes skin radiance and harmonizes complexion. Yellow Cream reduces dark spots and uneven skin tone.
Institute BCN provides physicians and health and beauty professionals throughout the world with the widest range of mesoceuticals on the market, and the equipment necessary to apply the most advanced needle free mesotherapy treatments.

BCN offers efficient, safe and scientifically proven cosmetic solutions, the result of years of continued research and development. Non-invasive treatments which are painless, with no side effects and offering immediate results which allow us to provide effective and customised solutions for cosmetic problems of both the face and body, such as ageing skin, localised fat, skin spots, hair loss, flaccid skin, cellulite, stretch marks, acne or scars.

Available BCN Classics Formulas: Amino Acids, Argireline, Artichoke Extract, Asian Centella, Biotin, Caffeine, Dexpantenol, Dmae, Ginkgo Biloba, Glutathione 100, Glycolic Acid, Hyaluronic Acid 0,8%, Hyaluronic Acid 2%, Hyaluronic Acid 3,5%, L-Carnitine

NEEDLE CONCEPT

Magic Needle - Medical Devices

Builted up in 2008, Needle Concept is specialized in launching and spreading of technical innovation of high quality in the domain of aesthetic medicine and anti-aging:

Settled in Biarritz, France, since 2013, the Company unites the administrative, commercial and financial departments as well as a logistic site and a production unit.

Needle Concept has surrounded itself with a team of professionals able to innovate, anticipate and promote outstanding solutions to the ever increasing requirements.

Magic Needle is the new way to inject by a sole entry aperture, and reduces pain of injection and risk of necrosis.

Sizes Available:

- 27G
- 25G
- 22G
Highest customer satisfaction bundled with a comprehensive product range and individual attention is content of this corporate slogan, which the director Andreas Mezei and Istvan Felszeghi-Nemes have set as a benchmark.
Today, there is a growing demand for more sophisticated sterilization technologies. Outpatient clinics, which have increased significantly in recent years, perform highly skilled invasive surgery on their own premises. Operating theaters commonly use onsite tabletop sterilizers. They all rely on advanced sterilization technology. In addition, the increasing tendency towards modular space design in the clinic makes Tuttnauer’s tabletop autoclaves the perfect solution.

Under the name SÜDAcare SÜDA® offers a diverse range of care products for professional foot care and podiatry, which combines highest quality with an excellent price-performance ratio.

**Elara 9i**
Class B Autoclave - steam generated inside chamber

**Elara 9D**
Class B Autoclave - built-in steam generator

**Nova 3**
Prevacuum Tabletop Autoclave

**Elara 11D**
Class B Autoclave - built-in steam generator

**2540MKA**
Semi-Automatic Autoclave

**EA and EKA Models**
With extra fast and efficient drying cycles, the EKA and EA autoclaves significantly increase your productivity.

**E and EK**
Automatic Tabletop Autoclaves and Sterilizers

**SUDA Foot Care**

**Line D - Diabetic**
The “line D” of SÜDAcare was specifically tailored to the needs of diabetics; the products contain only raw materials and active substances which as a diabetes-friendly are be classified.

**The Red Series - Special Preparations**
The preparations of the “red line” were to help with specific designed foot problems or complaints. They offer the highest quality for professional demands and have an intensive and GE aims at various nail and skin problems.

**Basic Care**
Specially designed for the daily care of the feet, the SÜDAcare basic care includes a wide range of toiletries for various skin types and their care requirements.
Since our founding, we’ve been ideating, exploring, designing, testing and developing new solutions. We aim to drive vision and deploy industry-first approaches. We partner with our physician clients to understand their needs, so we can deliver solutions that meet—and create—market demand.

**enlighten**
Power through stubborn discoloration and unwanted tattoos with enlighten™—the world’s first—and only—dual wavelength (1064 nm + 532 nm) and dual pulse duration (750 ps + 2 ns) laser system featuring class-leading treatment parameters and customization.

**truSculpt**
truSculpt is the latest noninvasive technology to address a wide set of concerns on the body. truSculpt is clinically proven to deliver deep, uniform heating to all body areas with comfort and ease.

| Tissue Heating | Appearance of Cellulite |
With more than 25 years of experience in the field, Omega Laser Systems is a specialist low level laser manufacturer whose in-depth understanding of Low Level Laser Therapy (LLLT) is built on its long term relationships with clinical and research centres across the world.

**Xp Control Unit**
Choose between either the softly moulded Clinic unit in white with matching probes or the compact grey Mobile unit designed to be operated from within its carry bag. Both have built in beam test, energy dose calculator, a long-life rechargeable battery for non-mains use, 9 pulsing options and a trigger point locator function with outcome change measurement.

**Infra-Red Single Laser**
For soft tissue repair and pain relief in the lower limb, we recommend the single diode 820nm 200mW probe. Excellent for the treatment of Plantar Fasciitis and Achilles Tendonitis, it is also the probe used for verruca treatment and trigger point work.

**Red-Light Single Laser**
The 660nm wavelength in this 50mW single probe is effective for targeted superficial healing enabling, for example, optimal post nail avulsion treatment.

**Smal Multi-Wavelength Led Cluster**
Used alone this cluster probe is appropriate for the treatment of ulceration and rheumatoid arthritis, and the 5 wavelengths included in its 20 diode head are carefully selected to work synergistically with the single wavelength 820nm probes for enhanced results across a wide range of applications.

**Point-Finder Kit**
Each Xp Control Unit comes with a dedicated hand probe and a specialised tip for a single laser probe to enable the point-finder function.

**Two Pairs of Protective Glasses**
Eye protection appropriate to the laser wavelengths utilised for use by clinician and patient.
Manufacturing more than 400 products at its Hamburg-Stellingen site in Germany, BODE Chemie is one of Europe’s leading suppliers in the fields of disinfection, cleaning, skin care and skin antisepsis. The high-performance hand disinfectants are only one highlight in BODE’s comprehensive range of products, which are used in more than 50 countries around the globe.

**BODE-CHEMIE**

**Sterilisation & Infection Prevention**

Cutasept® F
Colourless skin antiseptic with rapid and comprehensive effect.

Korsolex® plus
Aldehyde-free instrument disinfectant for heat-sensitive and heat-resistant instruments with powerful cleaning effect.

Sterillium®
The classic among rub-in hand disinfectants for hygienic and surgical hand disinfection.

Baktolin® pure
Standard wash lotion for the thorough hand cleansing. Colourant- and fragrance-free

Bacillol® Tissues
Alcohol-based rapid disinfection wipes in the practical dispenser with extensive spectrum of efficacy.

Bacillol® AF
Alcohol-based rapid disinfectant with extensive spectrum of activity. Dries without leaving residues.

Disinfection Box
Accessories for instrument disinfection.
